MEMORANDUM FOR: Project Director of Operations

SUBJECT : Flight Records on Former Contract Pilots:

[REDACTED]

25X1A9a

1. Personnel has been attempting to locate the flying records of those contract pilots who have separated from the Project. Ultimately, we expect the U-2 (and other) flying time to be forwarded to these individuals for inclusion in their official Form 5.

2. We have located such flight records for all the pilots with the exception of the two listed above. It would be appreciated if your office would advise us whether subject records are in your possession or, if not, whether you can suggest the probable location of such records. Each of the three Detachments in the field has advised us (in answer to our query) that subject records are not in their possession.
